Department of Nutrition
Seminar Series
Fall 2022

September 19
Heather Emmons
Nutrition PhD Student – UNCG

September 26
Dr. Carol Cheatham
Associate Professor – UNC Chapel Hill

October 3
Marlen Hernandez
Nutrition M.S. Student – UNCG

October 17
Riley McNamara
Nutrition M.S. Student – UNCG

October 24
Christina Chapman
Nutrition M.S. Student – UNCG

October 31
Dr. Yuxiang Sun
Associate Professor – Texas A&M

November 7
Dr. Zhenquan Jia
Professor – UNCG

November 14
Marianne Hurtado-Corsico
Nutrition M.S. Student – UNCG

November 21
Isa Ramos-Castillo
Nutrition M.S. Student – UNCG

November 28
Thomas Moses
Nutrition M.S. Student – UNCG

Links Between Dopamine, Inflammation, and Exercise

Understanding How Nutrigenetics and Nutrition Shape Cognitive Development

How is Adding Cereal Into the Bottle Associated with Daily Macronutrient Intake Among Low-Income Infants?

Disordered Eating Among Athletes

Breastfeeding Duration: What is the Relationship to Other Feeding Practices and Growth Trajectory in Low-Income, Minority Infants?

Nutrient-Sensing Ghrelin Signaling in Health and Disease: Trick or Treat?

Soy Isoflavone Genistein for the Prevention of Vascular Inflammation

The Effects of Artificial Cerebrospinal Fluid Glucose Concentrations on Dopamine Neurotransmission in the Nucleus Accumbens

Examining Infant Feeding Practices in Reference to WIC Assistance Cycle

Factors Related to Improving Fruit and Vegetable Consumption for Children
