Robert Wood Johnson Foundation Funding Opportunities – No Application Deadline

Pioneering Ideas: Exploring the Future to Build a Culture of Health

- **Purpose:** Pioneering Ideas: Exploring the Future to Build a Culture of Health seeks proposals that are primed to influence health equity in the future. We are interested in ideas that address any of these four areas of focus: Future of Evidence; Future of Social Interaction; Future of Food; Future of Work. Additionally, we welcome ideas that might fall outside of these four focus areas, but which offer unique approaches to advancing health equity and our progress toward a Culture of Health.
- **They want to hear from scientists, anthropologists, artists, urban planners, community leaders—anyone, anywhere who has a new or unconventional idea that could alter the trajectory of health, and improve health equity and well-being for generations to come. The changes we seek require diverse perspectives and cannot be accomplished by any one person, organization, or sector.**

Evidence for Action: Investigator-Initiated Research to Build a Culture of Health

- **Purpose:** Evidence for Action (E4A), a national program of the Robert Wood Johnson Foundation (RWJF), funds research that expands the evidence needed to build a Culture of Health. A Culture of Health is broadly defined as one in which good health and well-being flourish across geographic, demographic, and social sectors; public and private decision-making is guided by the goal of fostering equitable communities; and everyone has the opportunity to make choices that lead to healthy lifestyles. RWJF’s Culture of Health Action Framework, which was developed to catalyze a national movement toward improved health, well-being, and equity, guides E4A’s program strategy.

Massage Therapy Association Invites Applications for Research Awards

The Massage Therapy Foundation supports scientific research projects designed to advance the knowledge and practice of massage therapy. To that end, the foundation welcomes applications for its MTF Research Award program, which will award grants of up to $300,000 over three years in support of high-quality, independent research that significantly and directly contributes to the knowledge of massage therapy and/or its application. Basic, applied, and translational research studies focused on investigating massage therapy as wellness, medical, or health/mental health treatment and/or prevention intervention will be supported.

LOIs are due September 10. Selected applicants will be invited to submit a full proposal by December 6, 2021. Applicants must be associated with or have secured the cooperation of a university, independent research organization, health center, or other institution (the “sponsoring organization”). In addition, a sponsoring organization must have sufficient facilities and human and informational and Institutional Review Board (IRB) resources available to support the proposed research project and perform the proposed work.

W.K. Kellogg Foundation Grants

Applications Accepted on a Rolling Basis

Children are at the heart of everything we do at the Kellogg Foundation. Our goal is lasting, transformational change for children. As a grantmaker, we recognize that children live in families and families live in communities. Therefore, our three areas of focused work – Thriving Children, Working Families and Equitable Communities – are dynamic and always interconnected.
Achieving strong outcomes for children happens by connecting what families need – at home, in child care settings, at school, at work and in their communities. As a foundation, we use a variety of change-making tools – grantmaking, impact investing, networking and convening. With our support, grantees and partners work together to make measurable improvements in children’s lives.

Their Interconnected Priorities:

- Thriving Children: We support a healthy start and quality learning experiences for all children.
- Working Families: We invest in efforts to help families obtain stable, high-quality jobs.
- Equitable Communities: We want all communities to be vibrant, engaged and equitable.

**FY 2022 AmeriCorps State and National Public Health AmeriCorps Grant Competition**

Public Health AmeriCorps will include a $400 million investment, over five years, from the American Rescue Plan Act workforce funding that will enable the recruitment, training, and development of a new generation of public health leaders who are ready to respond to the public health needs of the nation by providing public health service in communities.

“In partnership with the Centers for Disease Control and Prevention, Public Health AmeriCorps will help vulnerable communities recover from COVID-19 and address broader public health needs, especially those exacerbated by the pandemic,” said Mal Coles, acting CEO at AmeriCorps. “This is an exciting new partnership that builds upon the expertise, best practices, and lessons learned from both existing AmeriCorps and CDC programs to support communities and also provide much-needed surge capacity for state and local public health agencies that continue to bear the burden of caring for a nation in crisis.”

The deadline for applications is Monday, Nov 8, at 5 p.m. ET.  See funding guidelines/application.

**Charles Koch Foundation Seeks Applications for Foreign Policy Research Grants**

The foundation welcomes applications for its Foreign Policy Research Grants program, which provides support to scholars and research institutions interested in challenging the current foreign policy approach of the United States, providing alternative visions for U.S. foreign policy, and engaging in research that can bridge the gap between ideas and policy. While the foundation is especially interested in foreign policy research projects from the fields of political science, international relations, history, or economics, proposals from all fields will be considered on their merits.

Proposals will be accepted and evaluated on a rolling basis.

**The Glass Foundation Grant**

Eligibility:

Programs that offer:

- Environmental education and/or preservation
- Developmental and educational opportunities for children and youth

Tax-exempt organizations described in Section 501(c)3 of the Internal Revenue Code.

Organizations located in or serving one or more of these WNC counties: Avery, Buncombe, Burke, Caldwell, Cherokee, Clay, Graham, Haywood, Henderson, Jackson, Macon, Madison, McDowell, Mitchell, Polk, Swain, Transylvania, Watauga, Yancey
What They Will Fund:

- Capital Campaigns (Requests up to $200,000)
- Construction and Renovation Expenses (Requests up to $100,000)
- Program Supplies or Equipment (Requests up to $50,000)

Deadlines for Applying:

Please note: a full proposal must be submitted by the following dates to be reviewed at the quarterly meeting.

January Meeting deadline is DECEMBER 15
May Meeting deadline is APRIL 15

Once our funding level has been reached, the grant application process will close for that funding year.

**Stuart A. Wesbury, Jr. Postgraduate Fellowship**, offered by the American College of Healthcare Executives (ACHE)

The Stuart A. Wesbury Jr. Postgraduate Fellowship was established in 1991 to further postgraduate education in healthcare and professional society management. ACHE’s fellowship program has four primary purposes:

- To provide in-depth exposure to a broad range of association management issues and one-on-one interaction with senior-level executives.
- To allow the fellow to assume responsibility for selected administrative tasks.
- To develop the fellow's decision-making and problem-solving skills as they relate to complex organizational activities.
- To provide the fellow with an opportunity to explore particular issues of importance to ACHE and its members.

**Fellowship Program**

The one-year fellowship program will provide an opportunity for the fellow to work in all major ACHE divisions, including Communications and Marketing, Executive Office, Finance & Administration, Health Administration Press, Management Information Systems, Member Services, Professional Development and Regional Services. The fellowship program’s content will be developed around organizational needs and the fellow’s special interests. Attendance at ACHE seminars and conferences and key association meetings is part of the fellowship. ACHE President and Chief Executive Officer Deborah J. Bowen, FACHE, CAE will serve as preceptor for the fellowship program.

**ECMC Foundation Grant**

We primarily make grants in two focus areas: Career Readiness and College Success. We are especially interested in those proposals that focus on implementing systemic reforms to increase college success and career readiness for students from underserved backgrounds. Before applying for grant funding, please review our focus area pages and Grants & Investments Database to gauge whether your organization and project are a fit for our current priorities.

ECMC Foundation accepts Letters of Inquiry (LOIs) on a rolling basis. All LOIs must fit within either the priorities of College Success or Career Readiness focus areas. LOIs are submitted through our online system (for your convenience you can preview the form template here).
Minority Fellowship Program

Dedicated to expanding the delivery of culturally competent mental health and substance abuse services to underserved minority populations, and increasing the number of culturally competent Marriage and Family therapists.

Outstanding Research Publication Award

The AAMFT Research and Education Foundation annually confers up to two awards to recognize a published article, monograph, book chapter or book that represents an outstanding scholarly achievement in family therapy research. Outstanding scholarly achievement is construed broadly to include a variety of methods and inquiry (quantitative, qualitative, or conceptual), and a variety of findings, including those that confirm previous work, challenge previous work, or generate new areas of inquiry.

Graduate Student Research Award

The AAMFT Research and Education Foundation confers up to two cash awards annually to assist graduate students in the completion of their thesis or dissertation pertaining to couples and family therapy or family therapy training.

Dissertation Award

The AAMFT Research and Education Foundation recognizes scholarly achievement by recent graduates whose research study related to couples and family therapy or family therapy training.

Master’s Thesis Award

The AAMFT Research and Education Foundation recognizes scholarly achievement by recent graduates whose research study related to couples and family therapy or family therapy training.

Diversity Scholarship for Emerging Leaders (formerly Master’s Student Minority Scholarship)

The AAMFT Research and Education Foundation awards scholarships to minority students. Eligible individuals include United States citizens and permanent visa residents, including, but not limited to, those who identify as Black/African American, American Indian/Alaska Native, Asian/Asian American, Native Hawaiian/Other Pacific Islander, Hispanic, Latino/a, or Spanish origin, LGBT, bi/multilingual, or an individual with one or more disability. The scholarship is open to the following membership categories: Pre-Clinical Fellows, Student, and Clinical Fellows who have been members for less than five (5) years. COAMFTE students or graduates from a COAMFTE program are preferred, but it is not a requirement. The purpose is to support the recruitment, training, and retention of minorities in the field of marriage and family therapy.

Minority Stipends

Since 1990, cash awards have been given by the AAMFT Research and Education Foundation to up to two minority supervisors-in-training to support the recruitment, training and retention of minorities as AAMFT Approved Supervisors for the field of marriage and family therapy.

Family-to-Family Health Information Centers  Closing Date for Applications: Jan 05, 2022

Department of Health and Human Services, Health Resources and Services Administration

This notice announces the opportunity to apply for funding under the Family-to-Family Health Information Centers (F2F HICs) Program. The purpose of this program is to provide information, education, technical assistance, and peer support to families of children and youth with special health care needs (CYSHCN) and the professionals who serve them.
American Association On Health And Disability Frederick J. Krause Scholarship On Health And Disability 2022

The AAHD Frederick J. Krause Scholarship on Health and Disability is awarded annually to deserving students who have a disability and who are enrolled in undergraduate or graduate studies in a United States accredited college or university. Students must have achieved at least a status of sophomore. Preference is given to those who are pursuing studies related to health and disability, which may include, but are not limited to public health, health promotion, disability studies, disability research, rehabilitation engineering, audiology, disability policy, special education and majors that will impact the quality of life of persons with disabilities.

Deadline Submission: March 1, 2022

Z. Smith Reynolds Foundation Invites Applications for Community Progress Fund

Deadline: December 6, 2021 noon

To that end, the foundation invites applications for its Community Progress Fund, which is designed to provide an infusion of short-term funding to build on existing momentum to help move an issue, an idea, or an organization forward.

The Progress Fund enables communities to test ideas, expand promising efforts, or achieve greater impact. Engaging with community members through the Progress Fund grant cycle is intended to enable the foundation to support communities and better understand how different communities experience change, opportunity, and challenges. In this regard, the parameters for this approach are intentionally broad. In addition, ZSR aims to be accessible to areas of the state that have relatively higher needs and fewer resources. Consequently, preference will be given to those areas.

ZSR strongly encourages applications from organizations that are run by and primarily serve people of color. Proposals must demonstrate that there is existing momentum within the community and also show how, with an infusion of funds, they will move an issue or an organization forward to test an idea or achieve greater impact.

Small Grants for New Investigators to Promote Diversity in Health-Related Research (R21 Clinical Trial Optional)

The purpose of this Funding Opportunity Announcement (FOA) is to provide support for new investigators from diverse backgrounds, including from groups nationally underrepresented in biomedical research, to conduct small research projects in the scientific mission areas of the National Institute of Diabetes and Digestive and Kidney Diseases (NIDDK) and participating Institutes and Centers. New investigators at the time of award under this FOA will have/have had less than $125,000 direct costs of combined research funding (excluding NIH training and NIH career awards). This R21 will support small research projects that can be carried out in a short period of time with limited resources and seeks to facilitate transition to research independence. The R21 grant mechanism supports different types of projects including pilot and feasibility studies; secondary analysis of existing data; small, self-contained research projects; development of research methodology; and development of new research technology.

Standard NIH due dates apply – first one being October 16, 2021 and continuing through September 7, 2024. See chart on bottom of the webpage for specific dates.

Notice of Special Interest (NOSI): Social, Behavioral, and Economic Impact of COVID-19 in Underserved and Vulnerable Populations

NIH Institutes, Centers, and Offices participating in the Social, Behavioral, and Economic Impacts of COVID-19 in Vulnerable and Health Disparity Populations initiative are issuing this Notice of Special Interest (NOSI) to highlight interest in research to strengthen the understanding and response to the Coronavirus Disease 2019 (COVID-19)
pandemic and help us prepare more effectively for future public health emergencies. While research related to the
direct clinical effects of COVID-19 are supported by other funding opportunities, there are additional urgent public
health needs, particularly in populations who experience health disparities and in vulnerable populations. The purpose
of this Notice is to 1) emphasize the roles and impacts of interventions, particularly those under the umbrella of digital
health, as well as community-engaged and multi-level interventions in healthcare settings to address access, reach,
delivery, engagement, effectiveness, scalability, and sustainability of services that are utilized during and following the
pandemic, and 2) encourage the leveraging of existing large-scale data sources with broad population coverage to
improve prediction of various mitigation efforts (including vaccinations, masking, and physical distancing to inform the
public health response) on transmission reduction and on social and economic impacts, and assess the downstream
health and healthcare access effects, with an emphasis on underserved and vulnerable populations. Additionally, the
use of large-scale data sources to study the indirect health impacts of the pandemic and subsequent social and
economic changes is needed to understand the costs and benefits of various COVID-19 mitigation strategies.

This notice applies to due dates on or after October 5, 2021 and subsequent receipt dates through September 8, 2024.

**NIH Maximizing Opportunities for Scientific and Academic Independent Careers (MOSAIC) Postdoctoral Career
Transition Award to Promote Diversity (3 opportunity types available)**

- **K99/R00 Independent Clinical Trial Not Allowed**
- **K99/R00 - Independent Clinical Trial Required**
- **K99/R00 - Independent Basic Experimental Studies with Humans Required (BESH)**

The purpose of the Maximizing Opportunities for Scientific and Academic Independent Careers (MOSAIC) Postdoctoral Career Transition Award to Promote Diversity (K99/R00) program is to support a cohort of early career, independent investigators from diverse backgrounds conducting research in NIH mission areas. The long-term goal of this program is to enhance diversity in the biomedical research workforce. The MOSAIC K99/R00 program is designed to facilitate a timely transition of promising postdoctoral researchers from diverse backgrounds (e.g., see Notice of NIH’s Interest in Diversity) from their mentored, postdoctoral research positions to independent, tenure-track or equivalent research-intensive faculty positions. The MOSAIC K99/R00 program will provide independent NIH research support before and after this transition to help awardees launch successful, independent research careers. Additionally, MOSAIC K99/R00 scholars will be part of organized scientific cohorts and will be expected to participate in mentoring, networking, and professional development activities coordinated by MOSAIC Institutionally-Focused Research Education Award to Promote Diversity (UE5) grantees.

The first due date for New applications is October 27th, 2021 by 5:00 PM local time. The first due date for Resubmission applications is November 12, 2021 by 5:00 PM local time.

Standard dates apply, for all subsequent receipt dates, by 5:00 PM local time of applicant organization. All types of non-AIDS applications allowed for this funding opportunity announcement are due on these dates.

**American Psychological Foundation Invites Applications for Elizabeth Munsterberg Koppitz Child Psychology Graduate Student Fellowship**

Deadline: November 15, 2021

The American Psychological Foundation is inviting applications for its Elizabeth Munsterberg Koppitz Child Psychology Graduate Student Fellowship.

The foundation's goal is to nurture excellent young scholars for careers in areas of psychology, such as child-clinical, pediatric, school, educational and developmental psychopathology. To that end, the program will provide fellowships of $25,000 for one year in support of graduate research projects and scholarships in child psychology.
Applicants must have completed their doctoral candidacy by the time of application (documentation required), have demonstrated research competence and area commitment, and IRB approval must be received from the host institution before funding can be awarded if human participants are involved.

**WES Mariam Assefa Fund Invites Applications for Employer Practices**

**Deadline: November 15, 2021 (Letters of Intent)**

The fund invites applications for its 2022 grants program through which grants of up to $150,000 over two years will be awarded in support of promising new ideas from organizations working with employers to advance more inclusive practices that improve economic mobility for immigrant and refugee workers. The fund seeks ideas from organizations to directly engage employers to shift internal talent practices to reduce bias in recruitment and hiring, build more inclusive workplaces, and invest in the advancement of incumbent immigrant and refugee talent; pilot demand-driven training and education programs that connect immigrant and refugee job seekers to quality jobs, particularly in high-growth sectors; build coalitions within or across sectors to advance commitments and facilitate knowledge sharing and collective action among employers; and assess the impact of existing employer initiatives focused on immigrant and refugee workers to identify the path forward for those solutions.

**Russell Sage Foundation Research Grants**

**Funding Guidelines for November 10, 2021 Deadline:** RSF will accept letters of inquiry (LOIs) under these core programs and special initiatives: Social, Political and Economic Inequality; Future of Work; Behavioral Economics; and Decision Making and Human Behavior in Context. In addition, RSF will also accept LOIs relevant to any of its core programs that address at least one of the following issues:

- Social, Political, Economic, and Psychological Consequences of the COVID-19 Pandemic
- Research focused on systemic racial inequality and/or the recent mass protests in the U.S.

**American Association of University Women (AAUW) Invites Applications for International Fellowship Program**

**Deadline: November 15, 2021**

AAUW is inviting applications for its International Fellowships program, which will provide fellowships for full-time study or research at the graduate and postgraduate level in the United States to women who are not U.S. citizens or permanent residents and who intend to return to their home country to pursue a professional career. Fellowships of $18,000 will be awarded to recipients working toward a master’s/first professional degree; $20,000 for doctoral programs; and $30,000 for postdoctoral programs.

Applicants must have citizenship in a country other than the United States or a U.S. possession of a nonimmigrant visa if residing in the U.S. Women who are currently, or expect to be during the fellowship year, U.S. citizens, U.S. permanent residents, or dual citizens with the U.S. and another country are not eligible. Applicants must also hold an academic degree (earned in the U.S. or abroad) equivalent to a U.S. bachelor’s degree completed by November 15, 2021.

**American Association of University Women Dissertation Fellowships**

The purpose of the American Dissertation Fellowship is to offset a scholar’s living expenses while she completes her dissertation. The fellowship must be used for the final year of writing the dissertation.
Applicants must have completed all course work, passed all preliminary examinations, and received approval for their research proposals or plans by the preceding November. Students holding fellowships for writing a dissertation in the year prior to the AAUW fellowships year are not eligible. Open to applicants in all fields of study. Scholars engaged in science, technology, engineering and math fields or those researching gender issues are especially encouraged to apply.

Applicants must be U.S. citizens or permanent residents. Candidates are evaluated on the basis of scholarly excellence; quality and originality of project design; and active commitment to helping women and girls through service in their communities, professions, or fields of research.

Applications are open August 1–November 1.

**National Academy of Education/Spencer Postdoctoral Fellowship Program**

The National Academy of Education/Spencer Postdoctoral Fellowship Program supports 25 early career scholars working in critical areas of education research. These $70,000 fellowships support non-residential postdoctoral proposals that make significant scholarly contributions to the field of education. The program also develops the careers of its recipients through professional development activities involving National Academy of Education members.

The application deadline is 5pm Eastern Time on Wednesday, November 17, 2021.

**Spencer Foundation Research-Practice Partnership Grants Program**

The Research-Practice Partnership (RPP) Grants Program is intended to support education research projects that engage in collaborative and participatory partnerships with project budgets up to $400,000 and durations of up to three years. We accept Intent to Apply forms once a year in this program.

We view partnerships as an important approach to knowledge generation and the improvement of education, broadly construed. Over the long term, we anticipate that research conducted by RPPs will result in new insights into the processes, practices, and policies that improve education for learners, educators, schools, universities, families, and communities.

Application Deadlines:

- **Applications Open:** September 15, 2021
- **Intent to Apply:** November 10, 2021 12:00PM (Noon) CENTRAL
- **Full Proposal Deadline:** December 8, 2021 12:00PM (Noon) CENTRAL

**NIH Notice of Special Interest (NOSI): Research to Address Vaccine Hesitancy, Uptake, and Implementation among Populations that Experience Health Disparities**

This Notice of Special Interest (NOSI) highlights the need for research strategies and interventions to address vaccine hesitancy, uptake, and implementation among populations who experience health disparities in the US.* Research is needed to understand and address misinformation, distrust, and hesitancy regarding vaccines (e.g., SARS-CoV-2, pneumococcal, influenza, hepatitis B, human papilloma virus (HPV), and herpes zoster) among adults in the United States and territories, especially in populations at increased risk for morbidity and mortality due to long-standing systemic health and social inequities and chronic medical conditions. The purpose of this NOSI is to solicit community-engaged research to: 1) evaluate intervention strategies (e.g., expand reach, access) to facilitate vaccination uptake in clinical and community contexts; and 2) address the barriers to increasing reach, access, and uptake of vaccinations among health disparity populations at high risk and likely to experience vaccine hesitancy.
NIH HEAL Initiative: Development of Therapies and Technologies Directed at Enhanced Pain Management (R41/R42 Clinical Trial Required)

The purpose of this Funding Opportunity Announcement (FOA) aims to speed scientific solutions to stem the national opioid public health crisis by supporting the development of therapies and technologies directed at enhanced pain management through the Small Business Technology Transfer (STTR) program. This FOA is focused on applications directed at improving pain treatment, including the development of new non-addictive medications and devices and objective pain measurement. In addition, NIH is interested in new screening tools and models focused specifically on pain and development of pain therapies. Due Dates: January 6, 2022, April 6, 2022, and September 8, 2022

NIH Extramural Clinical Research Loan Repayment Program for Individuals from Disadvantaged Backgrounds (LRP-IDB) – Issued by the Office of The Director, NIH

Purpose: This Notice replaces NOT-OD-20-134 and provides program-specific information for the Extramural Clinical Research Loan Repayment Program for Individuals from Disadvantaged Backgrounds (LRP-IDB). The NIH Loan Repayment Programs (LRPs) are a set of programs established by Congress and designed to recruit and retain highly qualified health professionals into biomedical or biobehavioral research careers. Additional detailed information about each LRP is provided at https://www.lrp.nih.gov/eligibility-programs and www.lrp.nih.gov/apply.

The NIH invites qualified health professionals who contractually agree to engage in NIH mission-relevant research for an average of at least 20 hours each week for at least two years, initially, to apply for an award in the Extramural LRP. The Extramural LRP repays up to $50,000 annually of a researcher’s qualified educational debt in return for a commitment to engage in NIH mission-relevant research at a domestic, nonprofit, or government entity. Research funding from NIH is not required to participate in the Extramural LRP. LRP awards are based on an applicant’s potential to build and sustain a research career.

Extramural LRP applications will be accepted from September 1 until November 18, 2021. All LRP applications must be submitted electronically using the Application Submission System & Interface for Submission Tracking (ASSIST), https://public.era.nih.gov/assist/.

NIH Extramural Loan Repayment Program for Health Disparities Research (LRP-HDR) – Issued by the Office of The Director, NIH

Purpose: This Notice replaces NOT-OD-20-137 and provides program-specific information for the Extramural Loan Repayment Program for Health Disparities Research (LRP-HDR). The NIH Loan Repayment Programs (LRPs) are a set of programs established by Congress and designed to recruit and retain highly qualified health professionals into biomedical or biobehavioral research careers. Additional detailed information about each LRP is provided at https://www.lrp.nih.gov/eligibility-programs and www.lrp.nih.gov/apply.

The NIH invites qualified health professionals who contractually agree to engage in NIH mission-relevant research for an average of at least 20 hours each week for at least two years, initially, to apply for an award in the Extramural LRP. The Extramural LRP repays up to $50,000 annually of a researcher’s qualified educational debt in return for a commitment to engage in NIH mission-relevant research at a domestic, nonprofit, or government entity. Research funding from NIH is not required to participate in the Extramural LRP. LRP awards are based on an applicant’s potential to build and sustain a research career.

Extramural LRP applications will be accepted from September 1 until November 18, 2021. All LRP applications must be submitted electronically using the Application Submission System & Interface for Submission Tracking (ASSIST), https://public.era.nih.gov/assist/.
**The Role of Work in Health Disparities in the U.S. (R01 Clinical Trials Optional)**

The purpose of this Funding Opportunity Announcement (FOA) is to support innovative population-based research that can contribute to identifying and characterizing pathways and mechanisms through which work or occupation influences health outcomes and health status among populations with health and/or health care disparities, and how work functions as a social determinant of health.

NIH Standard Due Dates apply to this FOA.

**NIDDK: Time-Sensitive Obesity Policy and Program Evaluation (R01 Clinical Trial Not Allowed)**

This Funding Opportunity Announcement (FOA) establishes an accelerated review/award process to support time-sensitive research to evaluate a new policy or program that is likely to influence obesity related behaviors (e.g., dietary intake, physical activity, or sedentary behavior) and/or weight outcomes in an effort to prevent or reduce obesity. This FOA is intended to support research where opportunities for empirical study are, by their very nature, only available through expedited review and funding. All applications to this FOA must demonstrate that the evaluation of an obesity related policy and/or program offers an uncommon and scientifically compelling research opportunity that will only be available if the research is initiated with minimum delay. For these reasons, applications in response to this time-sensitive FOA are not eligible for re-submission. It is intended that eligible applications selected for funding will be awarded within 4 months of the application due date. However, administrative requirements and other unforeseen circumstances may delay issuance dates beyond that timeline.

Open Date: 8/22/2021

Letter of Intent Due Date: Not Applicable

Application Due Date: September 22, 2021; October 14, 2021; November 9, 2021; December 9, 2021; January 10, 2022; February 10, 2022; March 10, 2022; April 11, 2022; May 10, 2022; June 9, 2022; July 11, 2022; August 9, 2022; September 9, 2022; October 7, 2022; November 9, 2022; December 9, 2022; January 10, 2023; February 9, 2023; March 9, 2023; April 11, 2023; May 9, 2023; June 9, 2023; July 11, 2023; August 9, 2023; September 8, 2023; October 10, 2023; November 9, 2023; December 11, 2023; January 9, 2024; February 9, 2024; March 8, 2024; April 9, 2024; May 8, 2024; June 10, 2024, July 9, 2024; August 9, 2024; and September 10, 2024 All applications are due by 5:00 PM local time of applicant organization. All types of non-AIDS applications allowed for this funding opportunity announcement are due on the listed date(s). Applicants are encouraged to apply early to allow adequate time to make any corrections to errors found in the application during the submission process by the due date.
