The UNCG Speech and Hearing Center will offer a program designed to improve the writing skills for middle school students. The program will focus on the process of writing as much as the final product. We will encourage peer cooperation and collaboration while providing scaffolding and support to the students. The program is designed to enhance language and literacy skills through reading and writing in content areas, such as ELA, Science, and Social Studies. An Authors Chair will be incorporated to allow students the opportunity to share their work each week.

**Program Objectives**
- The Writing Process
- Language Concepts
- Literacy: Spelling & Writing
- Language & Reading Comprehension in content areas

**Activities**
- Group mini lessons
- Individual instruction
- Authors Chair for students to present and discuss their work
- Writing across content areas: ELA, Science, Social Studies
- Language & Spelling Activities
