### Freshman

**Fall**
- ENG 101 College Writing I (GEC-GRD)
- BIO 111 & 111L Principles of Biology I with lab (GEC-GNS)
- MAT 115 College Algebra
- NTR 103 Introduction to Food Science

**Spring**
- STA 108 Statistics (GEC-GMT)
- NTR 213 Introductory Nutrition
- NTR 203 Basic Quantitative Principles in Food and Nutrition

### Sophomore

**Fall**
- CHE 103 General Descriptive Chemistry I (GEC-GNS)
- CHE 104 General Descriptive Chemistry II
- BIO 277 & 277L Human Physiology with lab (or KIN 292)

**Spring**
- PSY 121 General Psychology (GEC-GSB)
- NTR 313 Nutrition Throughout the Life Cycle (Spring, check for possible Fall availability)
- CED 310 Helping Skills
- BIO 280 & 280L Fundamentals of Microbiology with lab
- NTR 282 Introduction to Dietetics (Spring only)

### Junior

**Fall**
- CHE 205 Organic Chemistry (Fall only)
- CHE 206 Organic Chemistry Lab (Fall only)
- BIO 271 & 271 L Human Anatomy with lab (or KIN 291)
- NTR 413 Intermediate Nutrition (Fall only)

**Spring**
- NTR 531 Nutrition and Human Metabolism (Spring only)
- NTR 302 Nutrition Education and Applied Processes
- NTR 421 International Nutrition and Cultural Foods (Fall and Spring)
- NTR 426 Management Practices for Dietetics (Spring only)

### Senior

**Fall**
- NTR 560 Advanced Nutrition (Fall only)
- NTR 550 & 550 L Nutrition Assessment with lab (Fall only)
- NTR 403 & 403 L Food Science and Technology with lab
- NTR 482 Professionalism in Dietetics (Fall only)

**Spring**
- NTR 423 Community Nutrition (Spring only)
- NTR 573 & 573L Medical Nutrition Therapy (Spring only)
- NTR 426 Management Practices for Dietetics (Spring only)

---

*Course is part of the Didactic Program in Dietetics requirement.

# Must earn a grade of C or better to count toward a major. (C- is not acceptable.)

---

Students must complete:
1) Four Global Perspective courses, marked with GL or GN. One must be GN. These courses may also fulfill the General Education core categories.
2) Two writing intensive courses. One is NTR 302, and the other may also fulfill the General Education core categories.
3) Two speaking intensive courses. One is NTR 302, and the other can be from the General Education Core Categories.
4) A minimum of 122 credits to earn a BS in Nutrition.
BECOMING A REGISTERED DIETITIAN NUTRITIONIST (R.D.N.)

Students wishing to become registered dietitians must first complete a B.S. degree which provides the knowledge requirements needed by entry-level dietitians. These requirements can be met by completing the Human Nutrition and Dietetics curriculum at The University of North Carolina at Greensboro, which is approved as a Didactic Program in Dietetics (DPD) by the Academy of Nutrition and Dietetics (AND). Following graduation, students must complete a Dietetic Internship. The internship helps students gain practical experience in clinical dietetics, community nutrition, and foodservice management. Finally, students must take and pass the Registration Examination for Dietitians, a national exam of the AND.

Students planning to apply for dietetic internships after graduation should discuss their plans with their advisor or the DPD advisor no later than junior year to make sure they meet all requirements and understand all that is involved in the application process.

OTHER NOTES ON THE DIETETICS PROGRAM

1. Advising is mandatory for all NTR students each semester. Students are responsible for attending the mandatory group advising day and for making certain that all requirements have been met for graduation.

2. Certain required courses are given only once a year. These should be noted as they may be prerequisites for other courses. Students have to consult with a faculty advisor each semester to receive their registration pin.

3. The following NTR and Related-Area courses are taken in sequence. Arrows indicate prerequisite courses required for progression through the major.

Please note that it takes three years to complete the sequence of chemistry, biochemistry, advanced nutrition and medical nutrition therapy (CHE 103, 104, 110L, 205, 206, NTR 531 & NTR 560 and 573).

Revised 4/18
