Dr. Scott Ross has agreed to accept the position of Associate Dean for Academic Administration.

Dr. Ross grew up in the South Carolina, with a strong emphasis on leadership skills and dedication to the well-being of student athletes. He has been active in the role of Athletic Trainers, having served as a certified athletic trainer by the Board of Certification for Athletic Trainers, and is licensed by the North Carolina Board of Physical Therapy. He is a member of the National Athletic Trainers' Association, is a certified athletic trainer by the Board of Certification for Athletic Trainers, and is licensed by the North Carolina Board of Physical Therapy.

He is a member of the National Athletic Trainers' Association, is a certified athletic trainer by the Board of Certification for Athletic Trainers, and is licensed by the North Carolina Board of Physical Therapy.

Dr. Ross has been an advocate for faculty affairs and has worked with the Kinesiology faculty to offer a fully online EdD program. The program has helped improve the national ranking of the Kinesiology PhD program and has worked to increase graduate student funded positions by 30 percent over four years. Dr. Ross also worked with the Kinesiology faculty to improve their national ranking to 15th (from 23rd) in the National Academy of Athletics.

In addition to his clinical program experience, Dr. Ross serves as a faculty member in Psychology in Kinesiology. He initiated differential tuition for both Kinesiology clinical programs, and as a faculty member on the NATA Fellows Committee. He has served as a member of the Editorial boards as a respected scholar.

Dr. Ross has published 50 peer-reviewed articles related to neuromotor function related to ankle instability, lower extremity injuries, and concussions. Further, he is currently a co-investigator on a Department of Defense grant that is examining the effects of repeated sub-concussive head trauma on neuromotor control. In 2014, Dr. Ross was elected as Fellow of the National Athletic Trainers Association and serves on several editorial boards as a respected scholar.

Dr. Ross introduced the nuts and bolts of telehealth and teletherapy while navigating the COVID-19 crisis. They were well received by the therapists and education had a positive impact on the telehealth work. They are currently working on an innovative virtual fellowship program in telehealth, and providing digital rehabilitation to therapists.

Dr. Jennifer Etnier, a fellow at the American College of Sports Medicine, discusses the cognitive benefits. Her mission to spark awareness about the academic value of exercise to improve brain functions.
